On Human Nature David L Hull Northwestern University Generations of philosophers have argued that all human beings are essentially the same, that is, they share the same nature, and that this essential similarity is extremely important

Cultural Relativism and Universal Human Rights Author(s) ...

A cultural relativist account of human rights, however, seems to be guilty of logical contradiction If human rights are based in human nature, on the simple fact that one is a human being, and if human nature is universal, then how can human rights be relative in any fundamental way? The simple answer is that human nature is itself in some measure
